WORKSHOP EQUIPMENT C55

The modular workshop combination that allows you to create a modern work environment customized to fit your space and storage needs. Choose from a wide range of solutions sharing high quality standards, designed to make the most of your time by optimizing work.

SPACE ORGANIZATION

A rationally organized workbench system as synonymous with optimized work

DESIGN

Refined finish to make your workplace a neat, aesthetically captivating environment

MADE IN ITALY

QUALITY

Beta's best
"Made in Italy"
quality to furnish
your workshop

MODULARITY

Modular workshop
system, customized
to fit your space
and storage needs

C55 055000000

Comprehensive workshop equipment combination

Comprehensive combination comprising:

- Single-door tool cabinet (C55A1)
- Two-door tool cabinet (C55A2)
- Workbench (C55BO/2)
- Workbench with sockets (C55PRO BO/2)
- Mobile roller cab with 7 drawers (C55C7)
- Fixed module with 2 storage drawers (C55M2)
- Fixed module with 7 drawers (C55M7)
- Fixed service module (C55MS)
- Tool panel with suspended cabinets (C55/2PM)
- Tool panel with shutter (C55PS-0)

Cabinets fitted with 3 interior, vertically adjustable shelves

Suspended cabinets fitted with gas springs making it easier to open/close doors

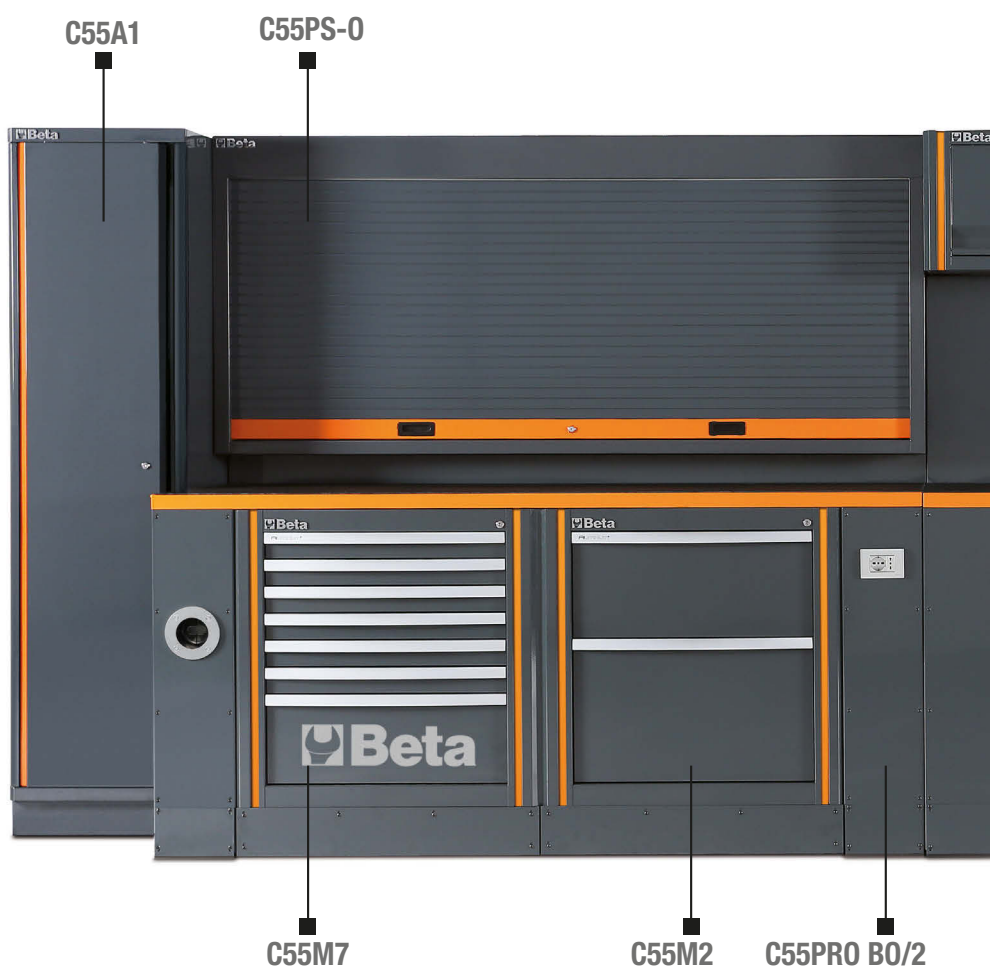

Compressed air outlet with built-in roller Ø 8 mm.
Hose length: 10 m

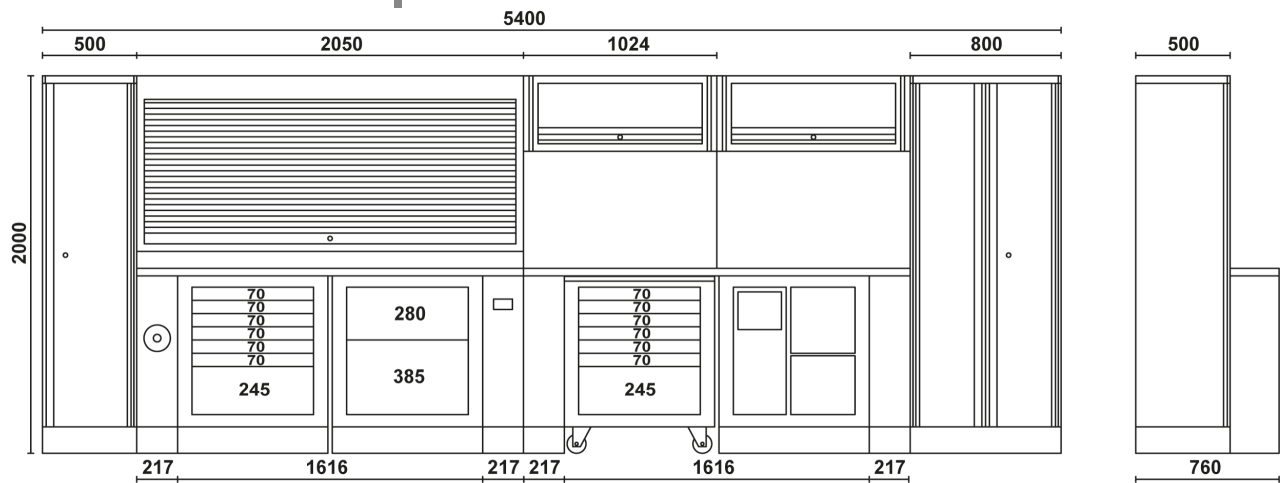

Aluminium drawer front complete with quick release system throughout length of drawer

Aluminium shutter with lock for protecting tools

COMBINATION

Framework

Schuko socket
16+10A
and EU Plug 10A

Drawers can accommodate
thermoformed tool trays
available in price list

Mobile roller cab with 2 fixed
and 2 steering wheels,
making it easy to pull it out

Adjustable supporting feet
suitable for uneven surfaces

WORKSHOP EQUIPMENT COMBINATION

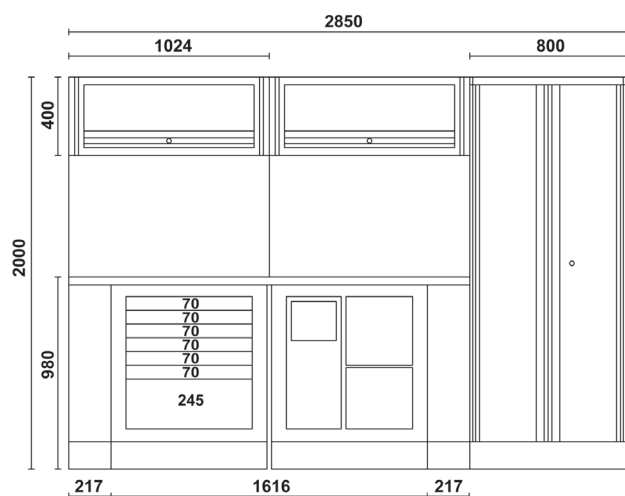

C55AB

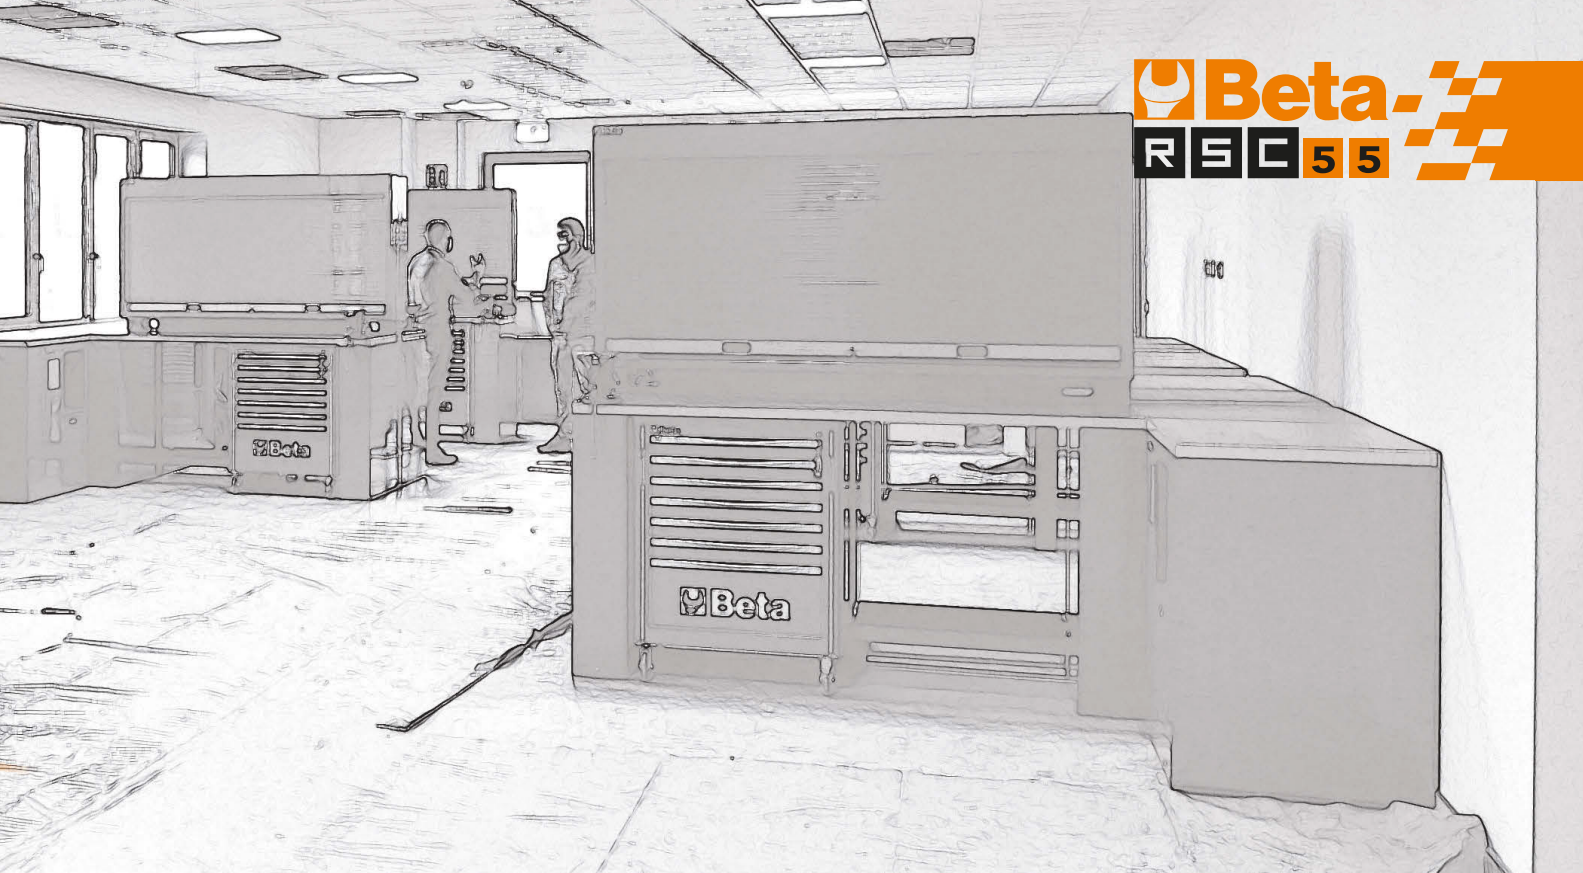

055000020

Workshop equipment combination

Combination comprising:

- Two-door tool cabinet (C55A2)
- Workbench (C55B0/2)
- Fixed module with 7 drawers (C55M7)
- Fixed service module (C55MS)
- Tool panel with suspended cabinets (C55/2PM)

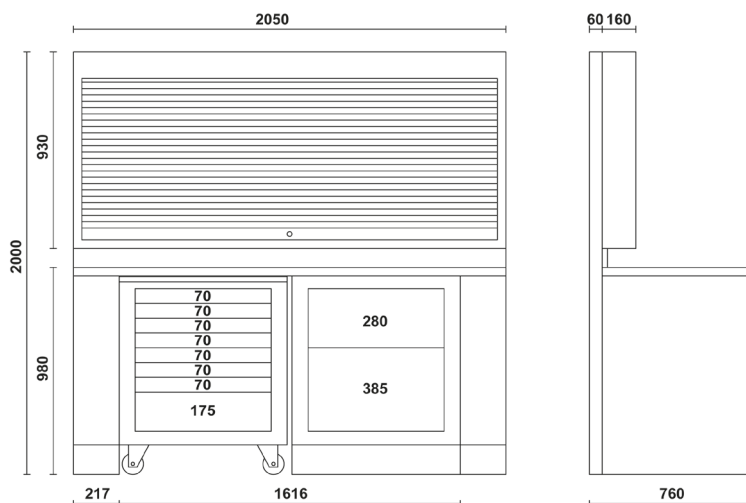

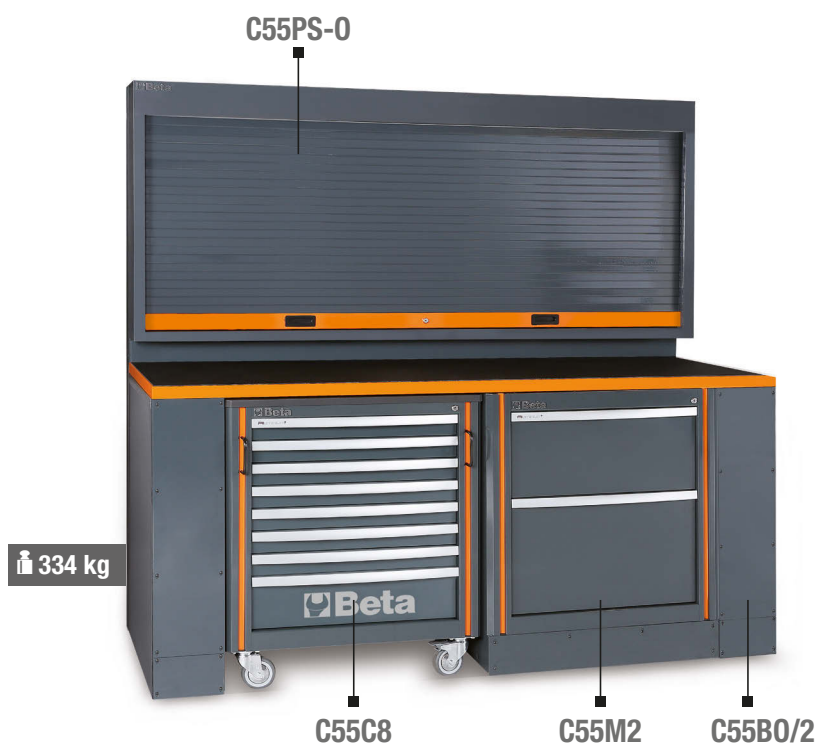

C55PB/3 055000035

Workshop equipment combination

Combination comprising:

- Workbench (C55B0/2)
- Mobile roller cab module with 8 drawers (C55C8)
- Fixed module with 2 storage drawers (C55M2)
- Wall tool system with shutter (C55PS-0)

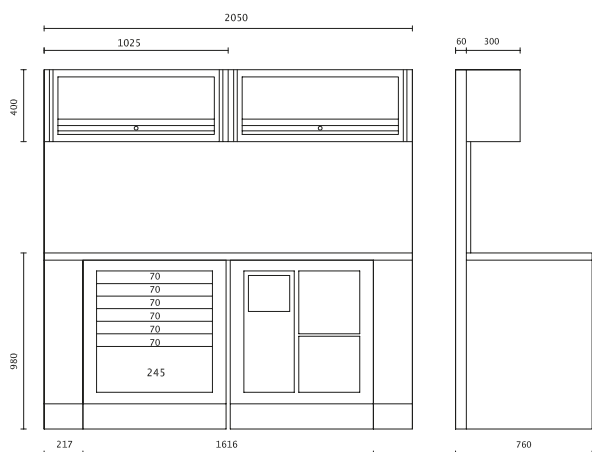

C55PB-PRO/7

055000065

Workshop equipment combination

Composed of:

- Workbench with worktop (C55B0/2)
- Fixed module with seven drawers (C55M7)
- Fixed service module (C55MS)
- Tool wall system (C55/2PM)
- 2 suspended cabinets (C55/PF)

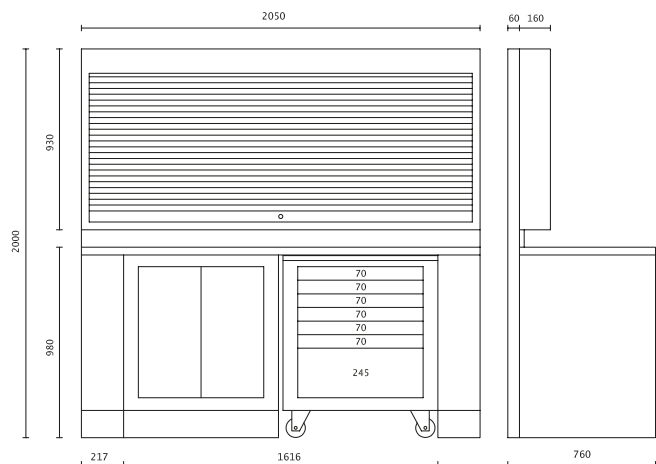

C55PB-PRO/8

055000066

Workshop equipment combination

Composed of:

- Workbench with worktop (C55B0/2)
- Mobile roller cab with seven drawers (C55C7)
- Tool wall system with shutter and framework (C55PS-0)
- Fixed two-door module (C55MA)

WORKBENCH

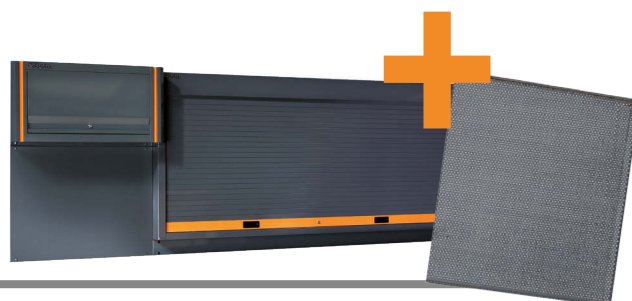

Choosing the workbench means the first step in any workshop furniture project.

We at Beta offer pre-arranged solutions in versions 2, 2.8 and 4 metres in length (pages 14÷15), in grey and orange colours. However, you can configure the workbench according to your requirements, choosing the worktop (page 17) and the legs (page 16), which can be used for both sides, are fitted with vertically adjustable feet and are available in single and double versions, with power sockets and hose or cable reels.

The modules under the workbenches are the heart of the project: mobile or fixed, with drawers or service equipment (pages 18÷21).

The modular system also provides several different solutions for the upper part: plain, suspended or shuttered panels, which can accommodate power sockets (pages 20÷24, 26).

Furthermore, a wide range of accessories allows you to complete the project, adapting it to your requirements (pages 30÷31).

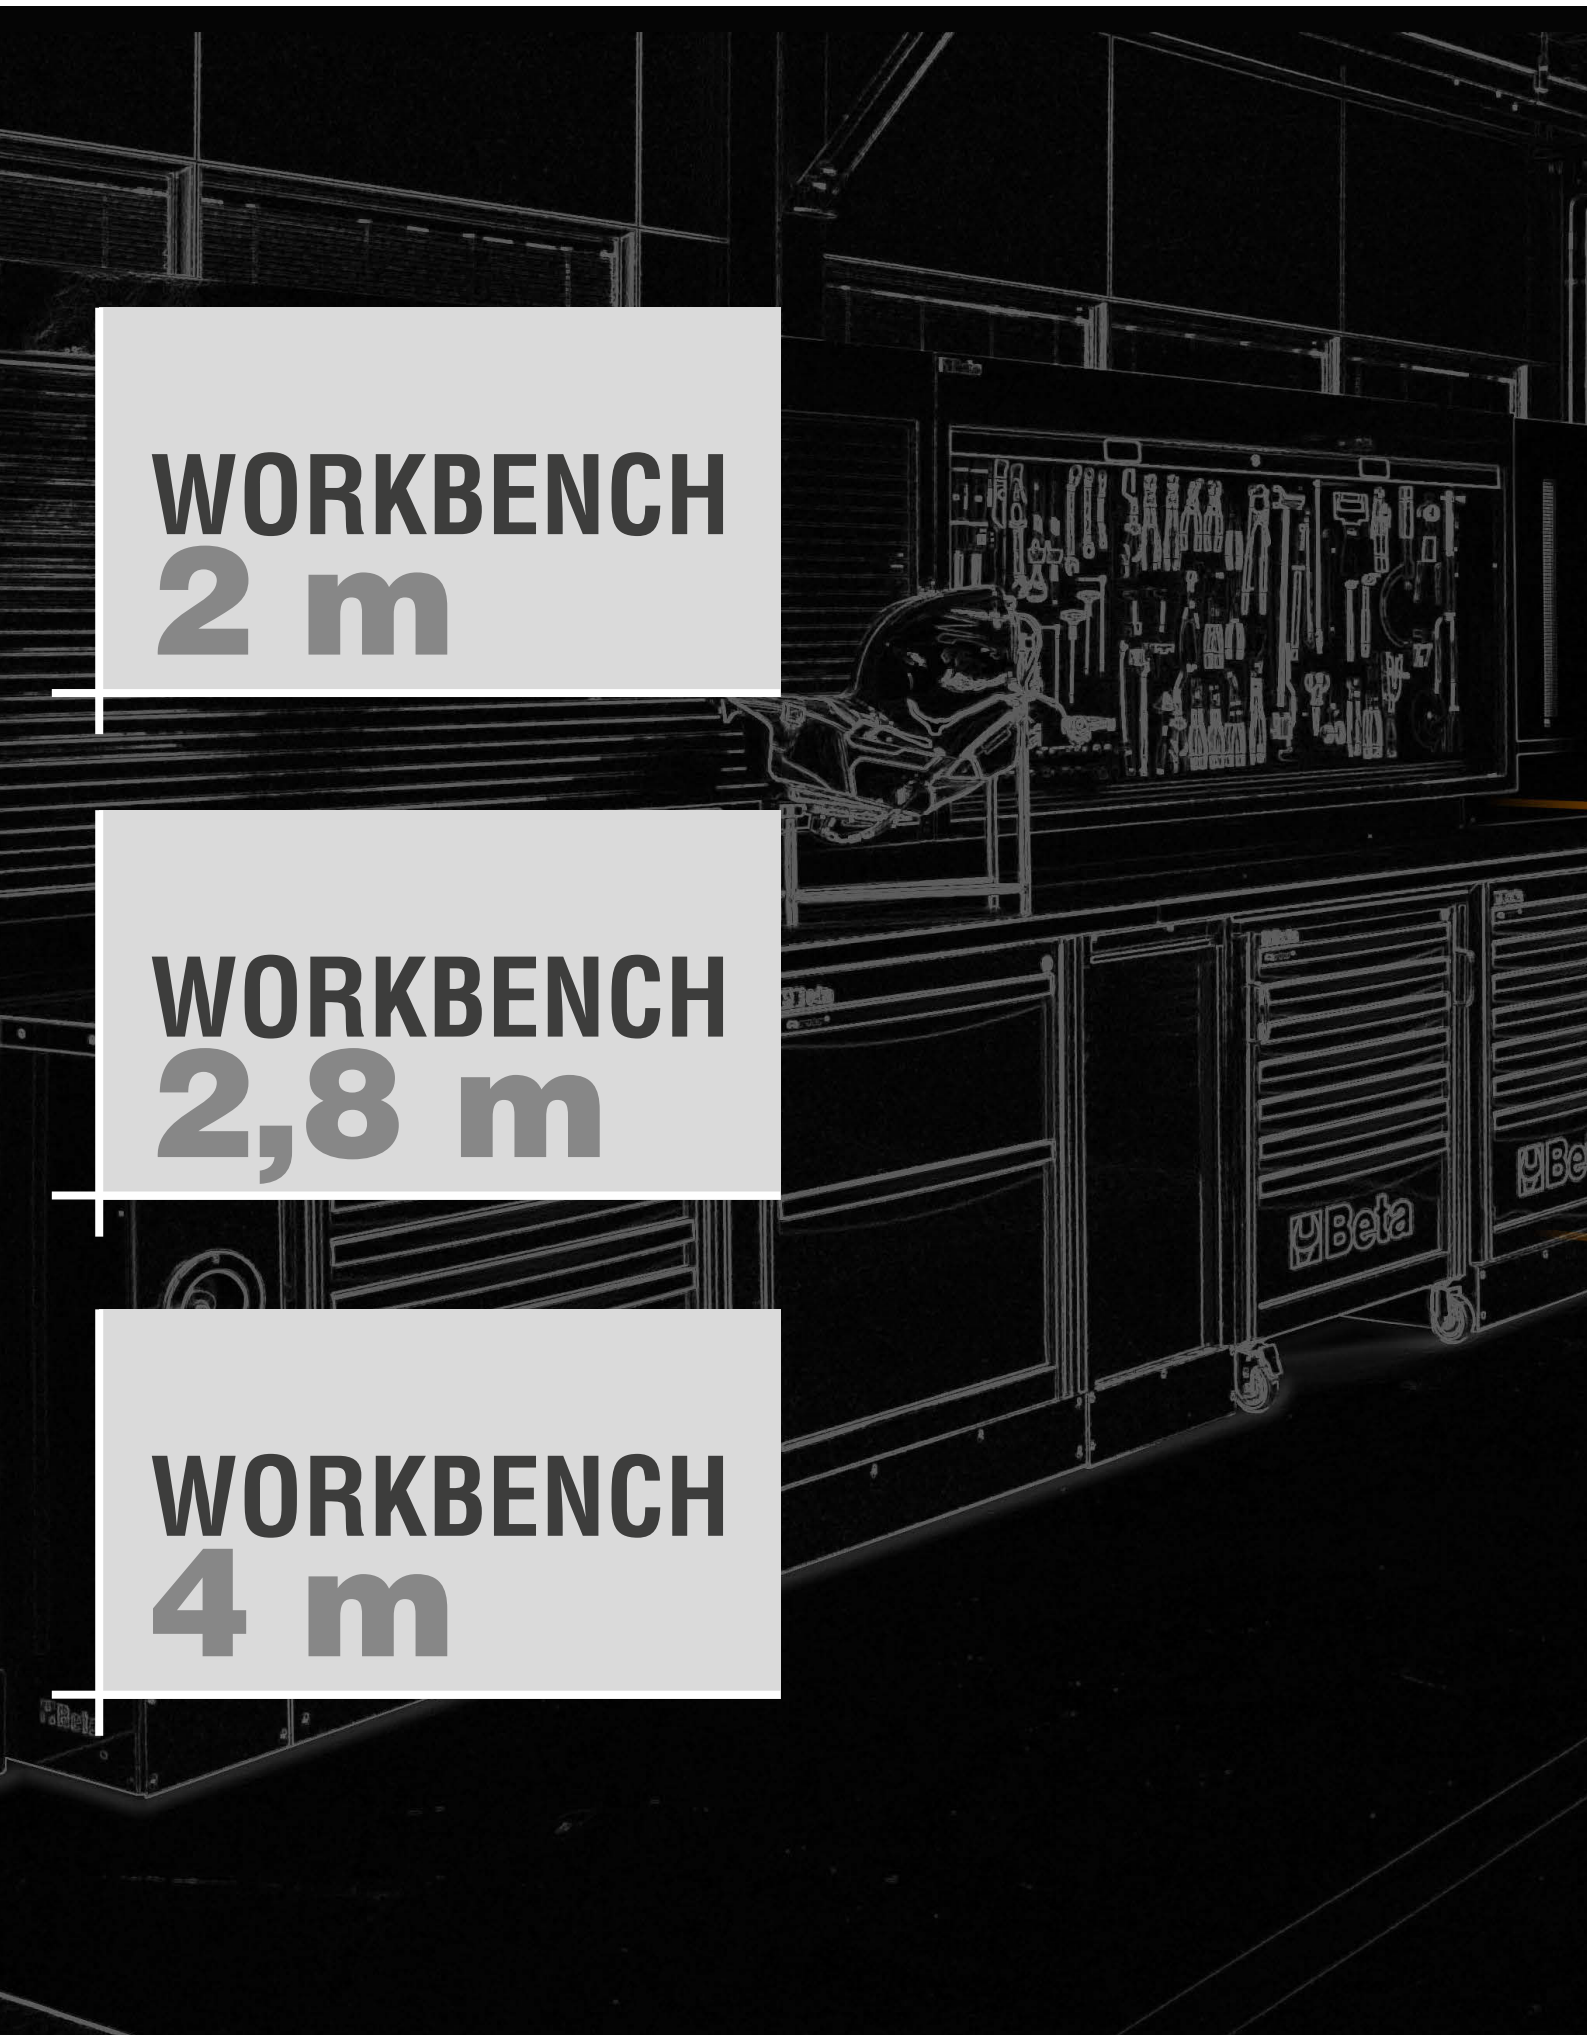

The modular project can be extended and changed in time, as requirements and available spaces vary.

Fixed module with 8 drawers

8 drawers (588x367 mm) with ball bearing slides

- Aluminium opening system throughout length of drawer
- Drawer bases protected by foamed rubber mats
- Front centralized lock
- Can be fitted with foam trays

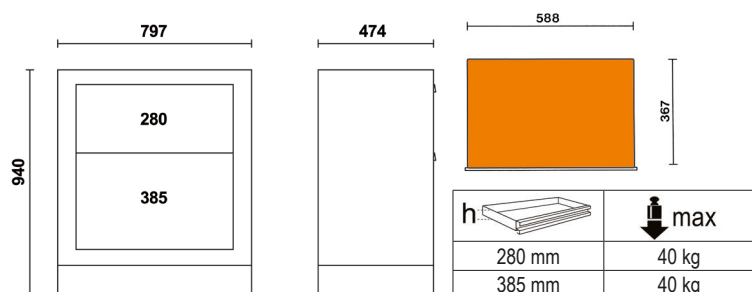

C55M2 055000202

Fixed module with 2 drawers

2 drawers (588x367mm) with ball bearing slides

- Aluminium opening system throughout length of drawer
- Drawer bases protected by foamed rubber mats
- Front centralized lock

C55MS 055000204

Fixed service module

- Built-in waste bin
- Perforated paper roll compartment
- Storage drawer, 305x270 mm

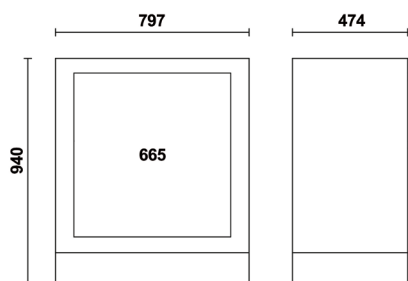

C55CS

055000208

Fixed module for separate waste

- Pull-out waste compartment (588x465 mm) with ball bearing slides
- 2 capacious pull-out interior containers for sorting waste

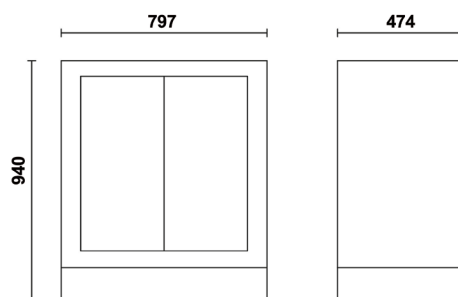

62 kg

C55MA

055000205

Fixed two-door module

- Push Pull opening
- With lock
- Interior shelf, vertically adjustable

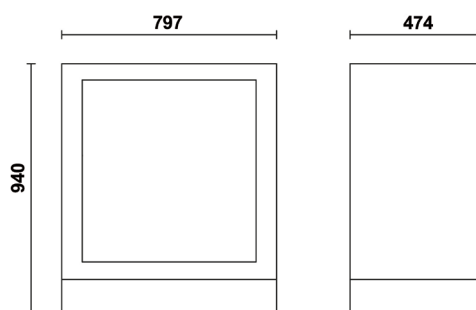

75 kg

C55MDO

055000210

Fixed oil distribution module

- 2 reels with 7m - 1/2" hose included
- Complete with 2 oil guns with digital litre counter with automatic drip catcher.
 - max. delivery rate: 0÷35 l/min
 - viscosity: 8÷5000 mPas

Cargo cabinets

Developed on the basis of accurate research conducted with trained, professional users, they provide ideal solutions for working comfortably and rationally.

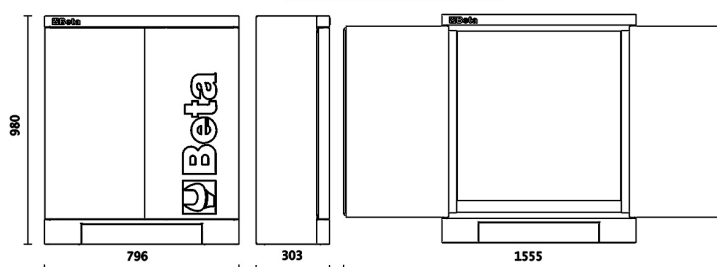

The opening system of the perforated panels of the two doors also allows the interior surface to be made the most of.

Main features:

- 1 drawer with ball bearing slides.
- Easy tool layout according to users' needs.
- Easy wall mounting by means of two slots located at the back of the cabinet.
- Safety lock for both drawers and doors.
- Empty thermoformed tray for 1/2" sockets and accessories.

YOUR COLOURS FOR YOUR WORKSHOP

RSC55 allows you to order the benches and tool wall system with shutter in a neutral (grey) version and customize the vertical coloured inserts by choosing from 7 different adhesive tapes.

1.

Order your modules in a neutral colour

2.

Order the vertical insert

Now choose the colour to your taste or according to your company's colours.

3D PLANNER

Imagine and create...

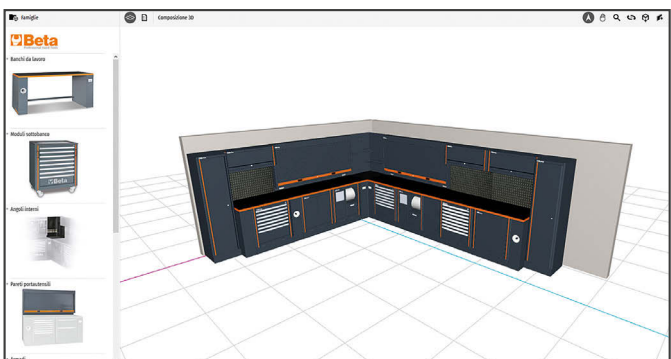

Configure your workshop in 3D online

step 1

Draw the walls

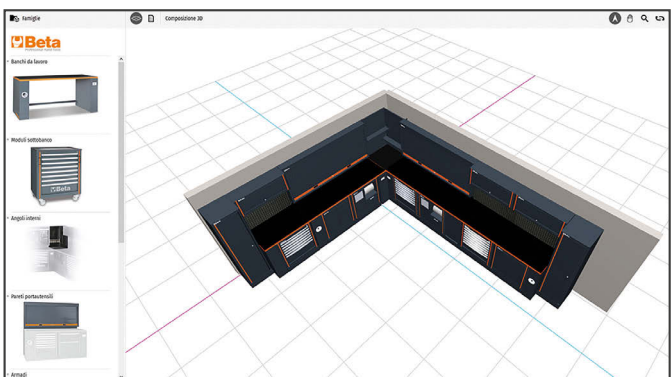

Create the walls according to the dimensions of your workshop.

step 2

Design your workbench system

Select and assemble the component parts, to make your own combination.

step 3

View the result in 3D

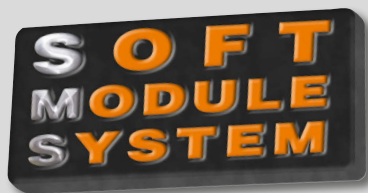

The combination is immediately displayed in 3D and can be viewed from different angles.

Request a quote

Print the detail of the arrangement in PDF format and take it to your dealer to get a quote.

CUSTOMIZED MODULES ON REQUEST

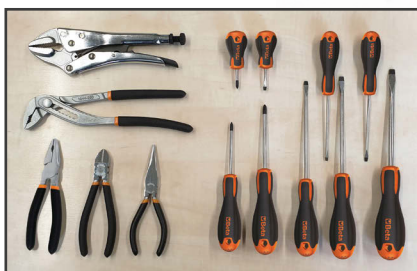

Fill your drawers with customized modules in six steps

(Max size: 1100 x 600 mm)

1

Determine your needs
and send your project
to the Beta dealer

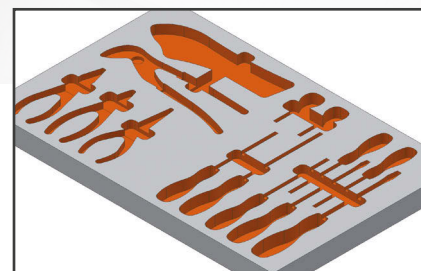

2

We will receive and codify
your initial assortment
of the project

Image	Product	Code Beta
	Self-locking pliers	010540022
	Pliers	010440250
	Pliers	011500046
	Screwdrivers for slotted head screws	012011039
	Screwdrivers for cross head Phillips® screws	012021018

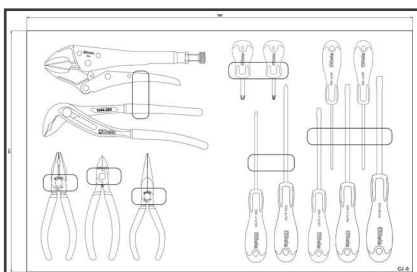

3

We will execute
the design

4

We will submit the final
layout for your approval

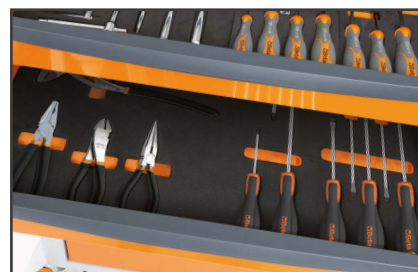

5

We will build the soft
modules in Beta's factory
in Sovico

6

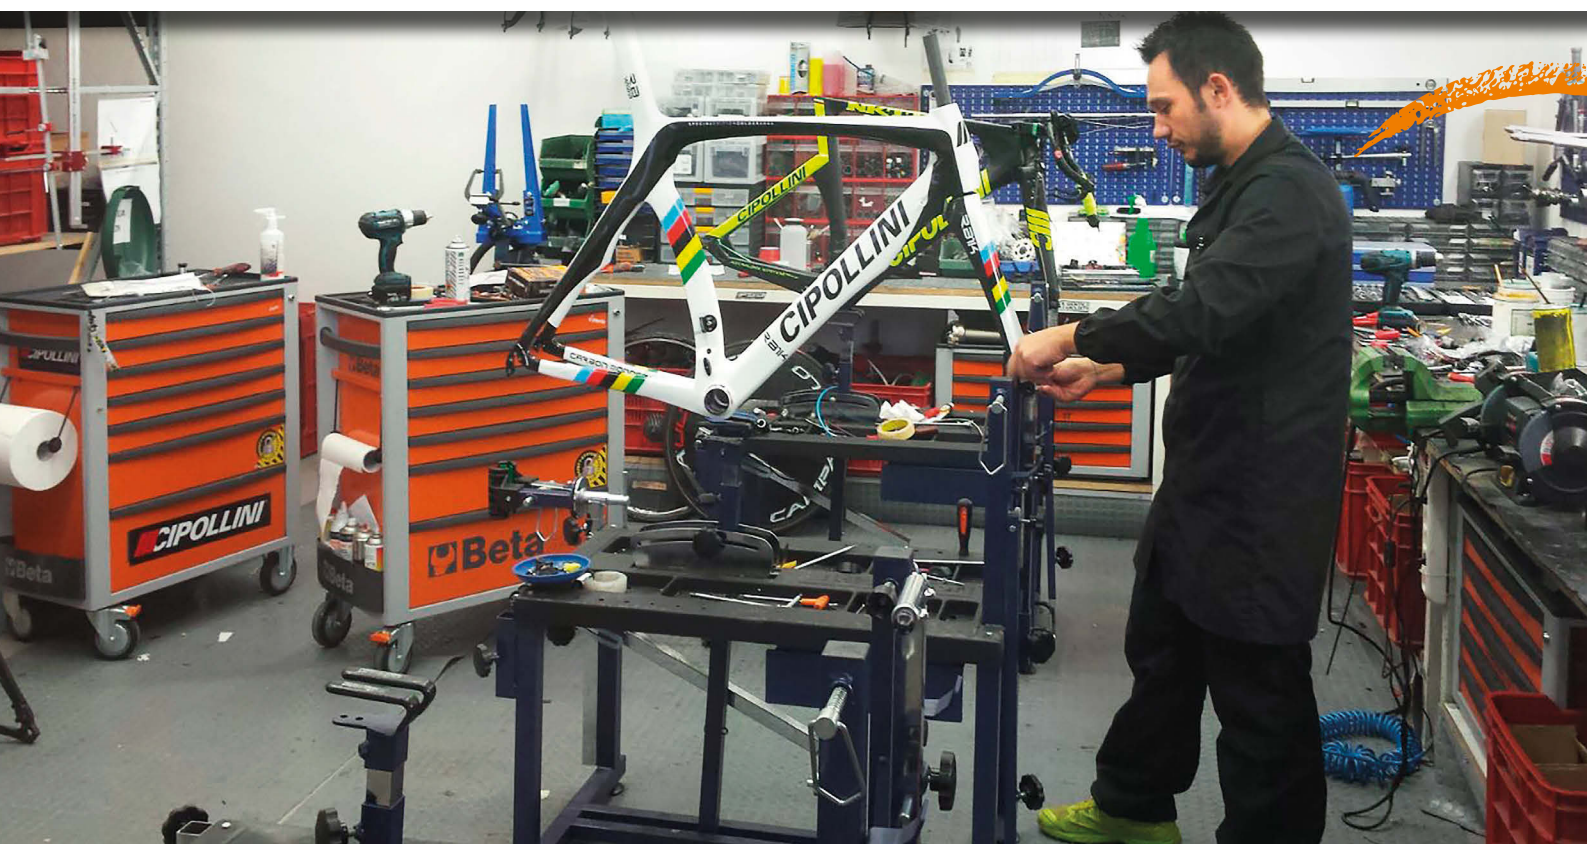

We will deliver the tools
in the customized modules

5S

is a workplace organization method of Japanese origin. The name is derived from the western transcription of 5 Japanese words:
seiri, seiton, seiso, seiketsu and shitsuke.

Following the 5 steps identified by the words allows a systematic, repeatable method to be implemented with a view to optimized working standards and enhanced operating performance.

BENEFITS

Reduced time loss and improved cost-effectiveness

A proper organization and transport system for your tools will allow you to have everything you need, where you need it, and within reach.

Enhanced quality and productivity

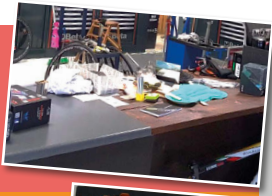

Standard equipment does not always cater to our needs. Creating your equipment on an item-by-item basis will allow you to fully adapt it to your requirements, which will result in improved reliability and performance.

Fewer work accidents

Most accidents occur while using tools. Arranging all necessary items so that they can be easily selected for use and removing all unnecessary items will allow you to minimize misuse and reduce hazards.

Greater efficiency

Reducing the number of defects and errors will allow you to avoid delays, optimize processes and improve the company's results and efficiency.
