

BETA 1031/S4 1,3

Set of 4 professional circlip pliers for internal and external circlips

Features

Assortment of external circlip pliers for elastic safety rings

TECHNOLOGIES AND MATERIALS

- Cathaphoresis coating, a treatment that provides high protection against corrosion and chemicals
- Cold-forming for greater pliers toughness
- PVC-coated handles for a secure grip

EASY CHOICE

Beta pliers are printed with the range of ring diameters for which they are suitable. This will make it easier to find the correct pliers and carry out efficient machining.

COMPLETE SET

The set includes 4 circlip pliers: 2 for outdoor and 2 for indoor use with Ø 1.3 mm tips to suit every need.

CLARITY OF USE

Marking on the pliers body with indication of the supported ring diameter range for quick selection and correct use at all times.
