Wrenches manufactured in brass (copper alloy) should not be used on volatile or flammable liquids or gases or on high pressure systems or on equipment with explosive atmospheres.
 I wrenches non possono essere utilizzati su liquidi o gas volatili o infiammabili o su sistemi ad alta pressione o su apparecchiature con atmosfere esplosive.
 Beta sparkproof tools cannot be used in contact with vapours or with devices that function on volatile.
 Wrenchen niet te gebruiken met de dampen of de apparatuur vlamgevoelig, explosief of met vloeistoffen die ontbranden.
