

BETA 1135

Cable cutter for steel cables

Features

Compact cable cutter for steel cables

DURABILITY AND STRENGTH

Thanks to its excellent construction materials, it guarantees a long service life and wear resistance while maintaining high performance even after intensive use.

COMPACTNESS

Lightweight and handy allows comfortable use without sacrificing robustness.

ERGONOMICS AND COMFORT
PVC handles provide a secure grip and reduce slipping, enhancing the user experience even during prolonged sessions.

RETURN SPRING
Equipped with a return spring for precise and safe opening and closing control of the handles.

SAFETY
The locking system reduces the risk of accidents and facilitates use in dynamic working environments.
