

## BETA 1211E/GE Evox-E electric screwdriver

### Certifications and Standards

### Features

The new Beta Evox-E screwdriver: the power of the electric screwdriver combined with the ergonomics of the Beta Evox screwdriver.

#### 4 times faster

Powered by a capacious 3.7V 2300mAh lithium-ion battery, this tool offers exceptional performance that far exceeds that of its competitors. Its high-quality components guarantee more than 1,000 screw connections per charge cycle, a testament to its extraordinary efficiency. But that's not all, the tightening speed of this device is

#### Practicality

Its small size and front LEDs make it perfect for working in confined and poorly lit spaces. In addition, LEDs indicate the charge status of the electric screwdriver.

1 LED: 0-25%

#### Impeccable grip

Thanks to its ergonomic design and high-quality internal components, this tool guarantees a hand torque of over 12Nm

#### Insulated bits 1000V

Designed for use with 1,000V insulated bits. This tool ensures safe and reliable operation for a wide range of applications. In addition, the screwdriver comes with a fabric case, which can be easily clipped onto the belt, offering a practical and convenient solution for carrying the tool.

#### Integrated, sealed operating keys

Start buttons, integrated and sealed in the handles, prevent accidental operation and protect the tool from external influences

#### Front LED rings

They increase visibility in those spaces where there is little light. They also indicate the charge status of the electric screwdriver.

#### Fast reloading

Fully recharged, via conventional USB-C cable, in less than two hours.
