BETA 1364SCP

Revolving bodywork support

Beta pivoting bodywork support: the perfect ally for your maintenance work

Equipped with 4 wheels, 2 of which are spare castors with brake, and swivelling up to 180°, this support allows you to work in total safety and control. Ideal for bonnets, wings and doors.

MOBILE
Four pivoting wheels and an ergonomic handle facilitate mobility within the work space

VERSATILE
Equipped with adjustable hooks and a rack that can be swivelled up to 180°, it easily adapts to various professional requirements

SAFE
A slim design frame of robust construction provides the operator with safety and stability
