

## BETA 1498/DG540E electronic battery charger / starter, 12/24 V, wheeled

### Certifications and Standards

### Features

A set of technical details highlight the sophistication and safety of the DIGICAR battery charger / starter, ideal for use with modern vehicles

#### HIGH PERFORMANCE

These chargers, designed with high quality components and following strict standards, guarantee exceptional performance and unrivalled reliability

#### TRANSPORTABILITY

A robust and at the same time easily transportable tool, thanks to ultra-resistant solid wheels and a practical ergonomic handle

#### EASE OF USE

Intuitive control panel to select battery type, charge level and timer, with display for real-time monitoring

#### SAFE STARTING

Thanks to the numerous controls on the electronic board and the CPS system, starting is only guaranteed under optimal conditions, protecting battery and vehicle from faults and overcurrents, offering maximum peace of mind during use

#### SAFE VENTILATION

Large air intakes ensure constant air flow, preventing the instrument from overheating and guaranteeing long-lasting performance

#### QUALITY COMPONENTS

Large cable cross-sections and high-quality clamps ensure efficient current transfer even under high loads

#### VERSATILITY OF USE

Solid, ultra-strong wheels for easy handling on all types of terrain
