

## BETA 1704A

### Crow bars with open and pointed edges

## Features

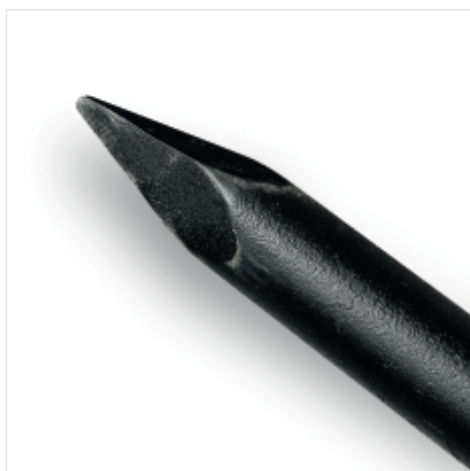

The lever or pry bar can be used to force, lift, break or separate different materials. Robust and suitable for even the heaviest use!

### STRENGTH AND ROBUSTNESS

Made from a round iron rod, they are ideal for general demolition work and lifting of even hard materials.

### POLISHED FINISH

The BETA tool is also aesthetically pleasing: durable, high-gloss paint finish with polished tip and chisel.

### HARDENED POINTED END

The hardening of the end gives the tip greater strength.

### HARDENED CHISEL END

Thanks to the hardened chisel end, the lever can be used in complete safety even with heavy lifting and loads.
