

1860BHT/KT
DC-powered inverter welding machine kit, for MMA and TIG electrode welding, TIG welding torch included

CE

A professional solution, ideal for light carpentry and maintenance jobs, the inverter welding machine, 1860BHT/160A, stands out as a first-rate item developed from the merger of BETA S.p.A. and the Italian-based welding industry leader, HELVI S.p.A.

This DC-powered inverter welding machine can be used for both MMA welding with rutilic, basic and stainless steel electrodes, and TIG steel welding.

Compact and lightweight, the welding machine supports the arc force, STICK/TIG (lift arc), hot start, anti-sticking and thermostatic protection features.

Features:

- Adjustment current: 10÷160A
- Power supply: 1x230V
- Use factor (40 °C) :
35% - 160 A
60% - 130 A
100% - 95 A
- Protection: IP23S
- Usable electrodes: Ø 1.6 - 4 mm rutilic, basic, stainless steel.
- Supplied with 25 mm² cables
- Dimensions: 360x140x230 mm
- Welding machine weight: 6.2 kg
- Torch length: 4 m
