

**1919F1/2**
**Filter-regulator-lubricator**

- Modular units composed of one condensate separator-filter and one lubricator
- The unit comprises the following: pressure regulator with locking device, air/oil micro-fog mixer with intensity regulator, polycarbonate cups with semiautomatic water exhaust valve, double graduated (bars-psi) analogue pressure gauge, fixing support

<b>Air in/outlet</b>	<b>1/2" GAS BSPT</b>
Maximum air capacity	2500 l/min
<b>Maximum pressure</b>	<b>9,5 bar</b>
Operating pressure	0,5 - 8,5 bar
<b>Operating temperature</b>	<b>5 - 60 °C</b>
Filter capacity	5 microns
<b>Cup capacity</b>	<b>60 cc air / 90 cc oil</b>
Weight	1.3 kg

	art.		 kg
