

1949G

Progressive blow gun with air regulator

- Made from hard-wearing, shockproof, scratchproof, thermally insulated composite plastic material
- The special valve and the lever allow the circuit to be progressively opened, thus optimizing air flow

Brass threaded insert	1/4" GAS
Operating pressure	6-8 bar
Maximum operating pressure	10 bar
Operating temperature	- 15 °C ÷ 70 °C
Weight	140 g
