

BETA 3022 1,0 Hydraulic pit and under bridge jack

Certifications and Standards

Features

Designed for ease of use and versatility, ensuring high stability and safety.

HIGH LIFTING CAPACITY

With a maximum capacity of 1000 kg, the lift is perfect for lifting heavy vehicles and components with ease.

COMPACT DESIGN AND MANOEUVRABILITY

The 4 Ø 99 mm pivoting castors and the compact design allow the lift to be easily moved under any vehicle, even in tight spaces.

ROBUSTNESS AND DURABILITY

The lifter is constructed of durable materials and designed to withstand intensive use in the workshop.

4-ARM CLAW

The 4-arm claw allows the workpiece to be firmly clamped, offering greater versatility and safety during operations.

PEDAL PUMP

Allows quick and precise height adjustment without effort.

Ø99 mm pivoting castors

For smooth movement and easy manoeuvrability.
