

3060 2,5**Mobile pneumatic scissor lift**

CE

Max. capacity: 2.5 t
Supplied with safety stands

Suitable for car repair garages, body shops and tyre specialists, it allows front and rear axles of cars, SUVs and vans to be lifted up to 110 cm from the ground. The tilting movement of the pads makes it possible to move from one axle to the other without having to take the vehicle back to the ground or move the lift.

Can be operated without occupying auto lifts
