

3071A
Manual tyre lever for cross and enduro motorcycles

Allows easy and quick tyre removal in racing fields; based on sturdy, wide frame made of galvanized steel, it provides firmness during tyre removal. Can be installed on BETA 3071RS bracket, for increased convenience

Features:

- Ergonomic rubber handle, for easy, safe lever hold
- With rubber retainer for locking rod during transportation
- Can be used to install cross and enduro tyres, 17" ÷ 21".
