BETA 3074O/2

Octagonal Ohlins fork wrench for DUCATI motorcycles

The new Beta tool for the professional motorbike mechanic

For your DUCATI Multistrada, an indispensable tool!
Designed to precisely remove the cap of Ohlins forks with electronic shock absorber

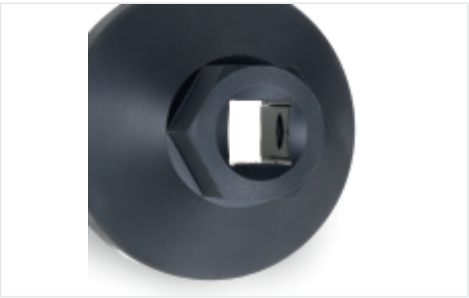

PRECISION WORK
With 8 pins and a rubber coating, this tool fits your fork perfectly, preventing ovalization of the plug

QUALITY OF WORK
Safely remove electrically wired fork caps. This tool is designed for precision, eliminating the risk of damage
