Strumenti adatti a uso antiscintille (ESD) in uso dove sono vietati i cellulari
 con antenna e sistemi a rete per prevenire rischi di incendio ed esplosione.

I cellulari può essere un fonte della interferenza per l'impiego in ambiente esplosivo.

This equipment's body cannot be used in contact with explosive or with devices that function
 in explosive atmosphere.

Antennas can react with the copper of the tool surface under certain conditions, especially
 with any integrated systems.
