

BETA 418/K3

Kit of masonry chisels with SDS-plus connection

Features

418/K3 is the professional choice for precision construction work with hammer drills. An investment in quality and efficiency.

VERSATILITY

The different end shapes of the 3 chisels in our kit provide complete coverage for construction professionals. One kit, multiple applications for precision work.

CONSTRUCTION OPERATIONS

Our set of 3 chisels with SDS-plus connection is designed for standard work on concrete and building blocks. It is the ideal tool for professionals engaged in renovation and restoration projects, ensuring precision and efficiency.

POINTED END

The pointed chisel tip enables precise setting work for breaking concrete blocks and bricks.

NARROW FLAT END

The narrow 20 mm chisel allows high material removal. For removal of concrete and bricks, cracks, wiring...

WIDE FLAT END

The 40 mm wide cutting edge makes this type of chisel ideal for demolishing ceramic tiles or loosening floorboards.
