

BETA 420D/SP8

Set of twist drills with cylindrical shanks, for wood, 2 cutters, centre guide drill bits

Features

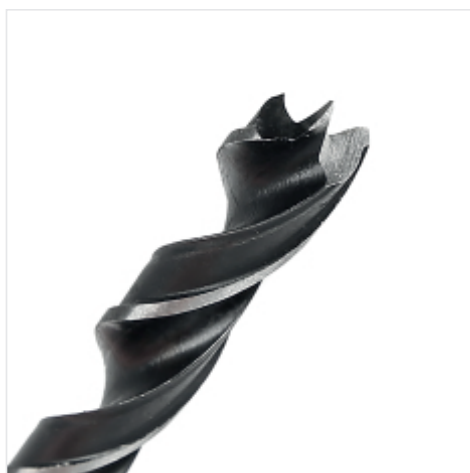

BETA 420D/SP8: the complete and definitive set of twist drills with cylindrical shanks that enriches BETA's offer in the woodworking market.

PERFECT FOR WOOD

The cylindrical drills, short series, of this series are ideal for machining and drilling wood and wood derivatives, guaranteeing precise holes even in furniture. An excellent option for professionals.

PRECISE CENTRING

The cylindrical shanks of the drills facilitate precise and firm positioning in the chuck, resulting in quick cutting of the wood grain and a smooth and clean hole around the opening.

CENTRE GUIDE DRILL BITS

The pilot drill at the tip of the drill bit provides the product with precision accuracy for starting the hole.

EFFICIENCY AND ORGANISATION

The grey box with transparent re-sealable lid ensures optimal storage, transport and organisation of the drill bits.
