

BETA 423A-CO
Special mills for spot welding,
HSS-CO 5%, ground

Certifications and Standards

DIN 1412/E

Features

The shape and design are designed for easy access to welding spots, removing them effectively without damaging the workpiece.

HIGH QUALITY MATERIALS

Made of high-speed steel (HSS) with an addition of 5% cobalt for superior heat and wear resistance.

HIGH PRECISION

Ideal for precision work where maximum accuracy is required.

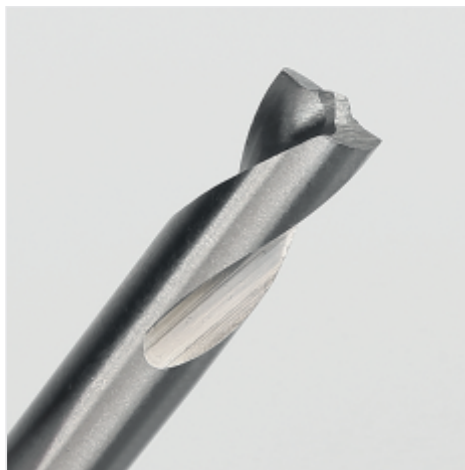

EFFICIENCY AND RELIABILITY

Remove welding spots quickly and precisely, without sacrificing quality of work. Every welding spot removal operation will be quick, clean and precise.

SPECIFIC DESIGN

The flat head, with sharp cutting edges and a central tip, removes the welding spot without damaging the surrounding material.

GROUND FINISH

Carefully finished surface for greater precision and optimum cutting results.

Certifications and Standards
