

BETA 423CO

Special end mills for spot welding,
HSS-CO 5%, ground

Features

The cylindrical 423CO tips are essential tools for professionals who need to remove welding spots effectively and precisely.

EXCEPTIONAL DURABILITY

With 5% cobalt, these tips offer superior strength, ensuring long-lasting performance even under stress on steel (including stainless steel), brass, aluminium, copper and plastic sheets.

QUALITY STEEL

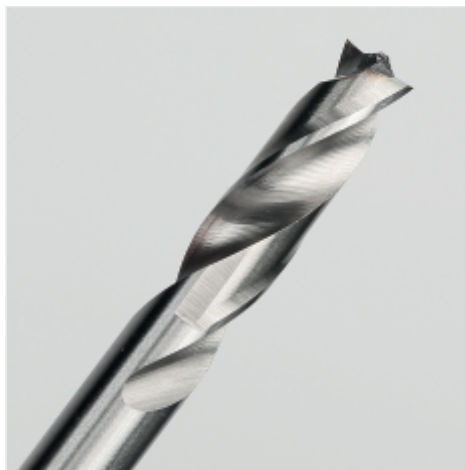

Made of high speed steel (HSS) enriched with 5% cobalt for increased heat resistance and durability.

Made of high speed steel (HSS) enriched with 5% cobalt for increased heat resistance and durability.

SPECIFIC DESIGN

The flat head, with sharp cutting edges and a central tip, removes the welding spot without damaging the underlying material.

GROUND FINISH

Carefully finished surface for greater precision and optimum cutting results.
