

BETA 429FC/C7

Assortment of 7 machine taps 429FC, made from HSS-CO 5%

Features

BETA 429FC/C7 is optimised for blind holes in hard metals and guarantees clean cuts and extended tool life even under extreme conditions.

RAPID CHIP EJECTION

The groove geometry and helix angle are optimised to promote rapid chip ejection, preventing build-up and reducing the risk of tap breakage.

SUPERIOR PERFORMANCE IN EXTREME ENVIRONMENTS

HSS-CO 5% alloy ensures excellent performance even under the most demanding conditions, significantly improving heat resistance, ideal for high-speed machining.

OPERATIONAL VERSATILITY

Suitable for a wide range of applications and materials, from small workshops to large manufacturing companies, from softer to stronger materials!
