Questo prodotto è in lega beta-cobalto (Cu-Be) e non deve essere usato in ambienti
 in presenza di carbonio in cui si potrebbero formare composti esplosivi.
 Usare questo prodotto solo in presenza di adeguati sistemi di ventilazione.
 This product is made of beta-cobalt alloy (Cu-Be) and should not be used in
 environments containing carbon in which explosive compounds may form.
 Use this product only in the presence of adequate ventilation systems.
