This tool is made of copper beryllium alloy (Cu-Be) and is classified as an explosive atmosphere (EX) tool. It is not suitable for use in explosive atmospheres.

Questo utensilio è fatto di lega di rame berillio (Cu-Be) ed è classificato come strumento per atmosfera esplosiva (EX). Non è adatto per l'uso in atmosfere esplosive.

This specialized tool is used in contact with explosive or with other flammable materials.

Questo utensilio specializzato è usato in contatto con esplosivi o con altri materiali infiammabili.

Always use this tool with the proper safety equipment and follow the manufacturer's instructions.

Usare sempre questo utensilio con l'equipaggiamento di sicurezza appropriato e seguire le istruzioni del produttore.
