

BETA 42MP/B9

Set of 9 combination wrenches, bright chrome-plated, in roll-up wallet made of durable polyester

Features

The polished version is preferred by professionals who also appreciate aesthetics.

FINISH

The polished surface is easier to clean, keeping the tool in top condition with less effort.

VERSATILITY

Available in different sizes, the Beta 42MP combination wrench is suitable for a wide range of professional applications.

PROTECTION

Nickel-chrome plating provides long-lasting protection against weathering, keeping the product as good as new over time.

ENVELOPE

The practical fabric pouch ensures optimal storage of each combination wrench.

POLYGON

Studying the polygon geometry of the Beta 42MP combination wrench enables it to outperform the competition
