BETA 5000 RSC50 2.0/PLED-ST

Aluminium profile with LED strip and SOFT TOUCH switch, for workshop equipment

LED strips, the perfect option to bring your workstation to life with stylish lighting.

Beta LED strips offer a wide range of possibilities: they can be installed under worktops, inside wall cabinets, under shelves and in linear/angular casings, for lighting that combines functionality and aesthetics.

Weight: 80 g

Features

Aluminium profiles with LED strips offer impeccable lighting, transforming work areas into efficient and functional spaces.

GUARANTEED BRIGHTNESS

The integrated 6.5W LED strip, with its high LED density, offers excellent light uniformity.
With a brightness of 500 lumens and a light colour of 4,000 K, it is the perfect choice for sophisticated lighting.

SOFT TOUCH SENSOR

The integrated touch sensor allows the LED strip to be illuminated and the light intensity to be modulated easily and effectively.

VERSATILITY

Each LED strip comes with cables of different lengths, designed to offer maximum application versatility.
