Strobiliati con cautela in zone ben ventilate. Evitare di usare questo strumento in presenza di gas infiammabili o in presenza di vapori infiammabili che potrebbero esplodere.

Caution: use in well ventilated areas. Do not use this tool in the presence of flammable gases or vapors that may explode.

These spanners' heads cannot be used in contact with aluminium or with alloys that liberate aluminium.

Aluminum can react with the copper of this tool surface under certain conditions and may generate explosion.
