

BETA 7810E

Outer work knee pads pair, with double stretch belt

Certifications and Standards

EN
CE 14404:2004+A1:2010

Features

Maximum protection and comfort: durable, EN 14404-2:2024 certified work knee pads, ideal for working on your knees with full freedom of movement.

COMFORT

Thanks to the shock-absorbing EVA and gel structure and the outer shell, direct pressure on the joints is reduced, limiting fatigue and preventing inflammation.

FREEDOM OF MOVEMENT

Thanks to the contoured design and adjustable fastening system, the knee pads follow every movement without slipping or squeezing.

CERTIFIED PROTECTION

The external knee pads comply with the updated standard EN 14404-2:2024 (Type 1, Level 1), which provides effective protection against impact, pressure and dangerous objects during knee work on hard surfaces.

RESISTANCE

Maximum protection for the knees thanks to a structure designed to withstand uneven surfaces and abrasive or sharp materials.

EASY ADJUSTMENT

The combination of elastic bands and hook-and-loop fastener guarantees comfort, practicality and a stable hold.

ROBUSTNESS

Material combination: polyester for strength, PVC for external protection and EVA+GEL for comfortable, ergonomic padding.

Certifications and Standards

CE EN
14404:2004+A1:2010

Composition

Fabric: 600D polyester
Outer shell: PVC
Inner pad: EVA (Ethylene Vinyl Acetate) + GEL
Stretch belt with hooks
