Microfleece neck warmer with string adjuster

The microfleece neck warmer is a functional, essential accessory for maximum winter protection.

PROTECTION

Warm, lightweight microfleece provides ideal cold protection.

VERSATILITY

The string adjuster is the name for customized wearability and allows the neck warmer to be used as a cap as well.

DESIGN

The neck warmer is based on essential design, without compromising details. The side reflex band and the outline logo add a touch of originality to the neck warmer.
