

**ROBUR 8021A****Thimbles, heavy type, galvanized****CORROSION RESISTANCE**

The high-quality galvanisation, free of hexavalent chromium, guarantees good corrosion resistance.

HEAVY TYPE

The increased thickness compared to the light version improves the mechanical properties against wear and friction.

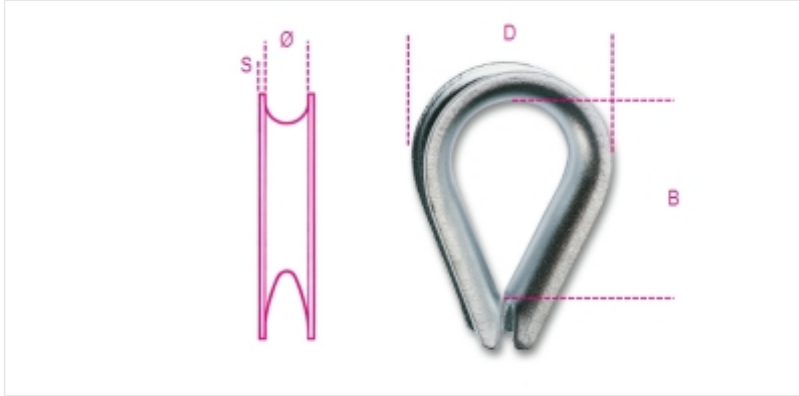

STABLE AND PLAY-FREE ASSEMBLY

The chamfered geometry of the tips allows for a more stable assembly, mounting the sleeve closer to the apex of the lanyard and tightening the rope more, with subsequent elimination of play.

MANUFACTURER IDENTIFICATION

Manufacturer's mark and size, marked on the inside of the radance.
