

ROBUR 8145VX

Hand chain block, compact

Certifications and Standards

EN13157
 CE TUV SUD *portata da

MAXIMUM MANOEUVRABILITY IN SAFETY

Thanks to the possibility of 360° rotation of the casing, the manoeuvring chain can be moved at a different angle to the pulling axis, allowing the operator to keep away from critical areas in the lifting area.

LIGHTNESS AND ERGONOMICS

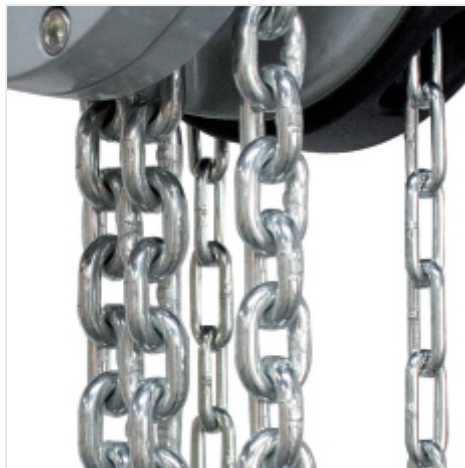

The compact dimensions and aluminium body make the hoist lightweight and ideal for a wide range of applications, such as industrial service and assembly, car repair shops, handicrafts...

CORROSION RESISTANCE

The quality of the aluminium alloy and galvanized chain guarantees good corrosion resistance even in outdoor environments.

PROFESSIONAL DESIGN
 Cover bolts flush with the surface for a professional, protrusion-free design.

LIFTING CHAIN
 The lifting chain in accordance with EN 818-7 guarantees strength, reliability and safety over time.

UPPER AND LOWER HOOKS
 The upper and lower hooks have an increased diameter to extend the range of use and offer greater versatility.
