

BETA 900HS/55

1/4" male square drive reversible ratchet, with H-SAFE anti-fall system

Certifications and Standards

DIN 3122 - UNI-ISO 3315

Features

The new Beta ratchet: the indispensable tool for the professional.

48-TOOTH MECHANISM

The 48 teeth guarantee a recovery angle of 7.5°.

PHOSPHATED SQUARE

The phosphate-coated square provides greater resistance to wear and corrosion and increases the service life of the tool.

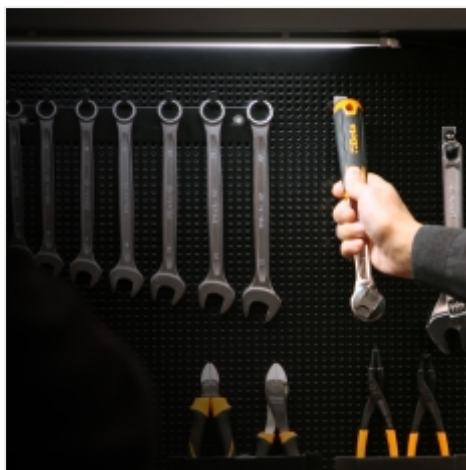

H-SAFE system

Beta's well-established H-SAFE system allows the tool to be used even when working at height, helping to prevent the risk of the spanner falling and minimising any damage to persons or objects.

ERGONOMIC BIMATERIAL HANDLE

The new ergonomic bi-material handle ensures secure grip, optimal comfort and better grip even in unclean environments.

APPENDIXABILITY

A hole in the handle allows the ratchet to be hung up when not in use for better organisation of tools.

NEW LEVER SHAPE

The lever with cam, aligned with the Beta 42 spanner, guarantees accessibility and precision, ideal for demanding professionals.
