

BETA 920HS/55LC 1/2" male square drive reversible ratchet, with H-SAFE anti-fall system

Certifications and Standards

DIN 3122 - UNI-ISO 3315

Features

The new Beta ratchet: the indispensable tool for the professional.

72-TOOTH MECHANISM

The 72 teeth guarantee a recovery angle of only 5° for fast action even in the tightest spaces.

LOCKING SYSTEM | QUICK RELEASE

Ease of use: the quick release mechanism allows the socket to be removed at the push of a button, making the operation much easier and less tiring.

PHOSPHATED SQUARE

The phosphate-coated square ensures greater resistance to wear and corrosion.

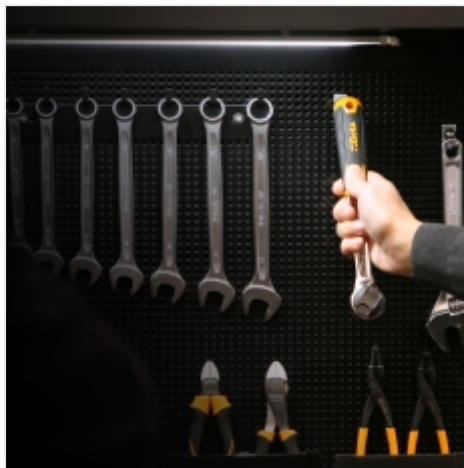

H-SAFE system

Beta's proven H-SAFE system allows the tool to be used even when working at height, helping to prevent the risk of the spanner falling and minimising potential accidental damage to people or objects

ERGONOMIC BIMATERIAL HANDLE

The new ergonomic bi-material handle ensures secure grip, optimal comfort and better grip even in unclean environments.

APPENDIXABILITY

The hanging handle of the Beta ratchet allows better display and organisation, improving convenience at the workstation.

NEW LEVER SHAPE

The lever with cam, aligned with the Beta 42 spanner, guarantees accessibility and precision, ideal for demanding professionals.
