

9549MPC
Multi-port charging base, 6 USB ports, for multiple charging.

CE

Modern, compact and functional, for charging up to a maximum power of 65 W.

g

COMPACT AND FUNCTIONAL

Based on its small dimensions, it provides a convenient fixed charging base with its 6 charging ports.

STATE-OF-THE-ART TECHNOLOGY

- Compatible with several quick charging protocols: QC2.0/3.0
- LED screen for checking total wattage, port number and current intensity
- Separate ON/OFF switch, so the device is never disconnected from the mains socket
- Maximum absorbed power: 65 W

INPUT	AC 110-240V 56/60Hz
TOTAL OUTPUT	65
OUTPUT of port PD20W (USB Type-C 3.0)	20W 5v 3A/9V 2.22A
OUTPUT of port QC18W	18W 5V 3A, 9V 2A, 12V 1.5A
OUTPUT of port USB-A	27W 5V 2.4A (Max)
