

BETA 9559/S

Outdoor one-sided banner,
module 3 x 0.8 m

Features

The Beta banner, made of warp knitted fabric, guarantees durability and visibility

WARP KNITTED FABRIC

Warp knitted fabric is known for its robustness and tear resistance, making it ideal for harsh outdoor conditions. This material can withstand strong winds, rain and other inclement weather without easily deteriorating.

RESISTANCE

The mesh structure of the fabric allows good air circulation, reducing the risk of the banner swelling or tearing under strong gusts of wind

EASE OF USE

The eyelets allow the banner to be easily attached using cords, ties, hooks or other fastening systems.

VERSATILITY

Thanks to its flexibility and durability, the Banner Beta can be used on various occasions, from sporting events to trade fairs

SIGNED BETA

The even and smooth surface of the warp knitted fabric allows for excellent print quality with vivid colours and sharp details
