

## BETA C6T - 2106

Tool rucksack, made of technical fabric, with castors, empty

### Features

Strength, practicality and comfort: the ideal backpack with castors for organising and transporting your tools easily and effortlessly.

#### ROBUSTNESS AND DURABILITY

Made of robust technical fabric, the C6T backpack with castors withstands wear, tears and heavy loads thanks to reinforced seams and durable materials.

#### COMFORT AND ERGONOMICS

Ergonomic design with comfortable handle and padded ergonomic backrest, designed to reduce shoulder fatigue and offer comfort even when fully loaded.

#### ORGANISATION AND CAPACITY

The C6T backpack with castors offers internal and external pockets for tools and accessories, ensuring meticulous organisation and quick access to everything you need.

#### WATERPROOF BASE

The waterproof base protects the tools from moisture, ensuring durability and keeping the backpack stable even on wet surfaces.

#### MAXIMUM EFFICIENCY

Outside pockets, removable tool panels and large inside pockets allow everything to be organised in a practical and tidy manner.

#### COMFORT

Thanks to its telescopic handle, the trolley offers convenience and comfort, allowing optimal transport even on uneven surfaces.
