

BETA RSC50 2.0 KNAI Lower corner module, for workshop equipment combination RSC50 2.0

Features

The ideal solution for those looking for quality and practicality in their work environment.

MAXIMISATION OF WORK SPACE

The 964x964 mm painted sheet metal corner work surface offers a large, durable surface area, ideal for carrying out various tasks in the workshop.

The angular shape makes the best use of space, optimising the work area without waste.

VERSATILITY

Thanks to the fixed module with large storage compartment, the necessary tools and materials can be efficiently organised, keeping the work area tidy.

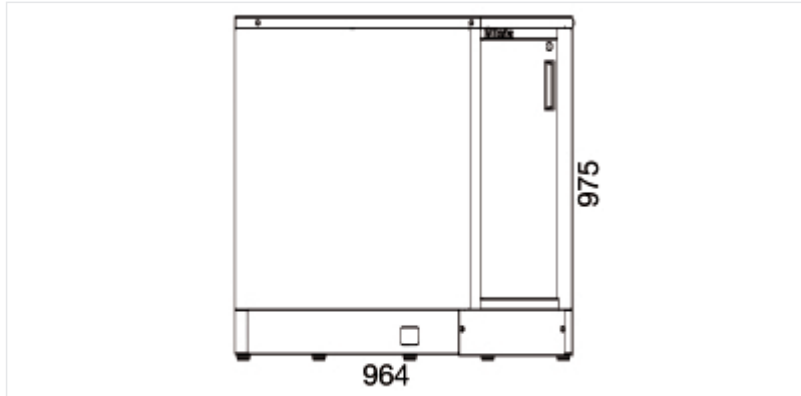

STURDINESS AND DURABILITY

High-quality materials, such as the PVC-coated sheet metal work surface, guarantee long service life and protection from the chemical elements.

CUSTOMISATION

Possibility to customise the worktop with a touch of elegance by choosing between our two colour variants: light grey and anthracite grey.
